

APPENDIX A

SUMMARY OF CONTACTS

Appendix A provides a listing of Federal and state resource agencies, local governments, Indian tribes, non-governmental organizations, businesses, unaffiliated members of the public, and others¹ likely to be interested in the relicensing of Yuba County Water Agency's (Licensee or YCWA) Yuba River Development Project relicensing contacted by Licensee to identify potential sources of existing, relevant and reasonably available information regarding resources potentially affected by continued Project operation and Maintenance (O&M). Licensee used several methods to obtain information for the PAD, including the following:

- **PAD Questionnaire.** This comprehensive questionnaire was sent to 137 separate individuals identified as likely to be interested in the relicensing proceeding (Table A-1). It was used as the one method to identify sources of existing, relevant, and reasonably available information that describe the resources potentially affected by continued Project O&M. A total of 4 responses to the PAD Questionnaire were received. A copy of the PAD Questionnaire and transmittal letter are available on the Relicensing website in the quick launch link "PAD Information Questionnaire" at the following location: <http://www.ycwa-relicensing.com>
- **Outreach Meetings.** Licensee held a series of public outreach meetings to familiarize Relicensing Participants with the Project; its facilities, features and operations; FERC's Integrated Licensing Process (ILP); and the process and schedule Licensee planned to use to Relicense the Project. The PAD Questionnaire was also distributed at the outreach meetings as another attempt to gather existing, relevant and reasonably available information. Table A-1 lists individuals who attended the outreach meetings.
- **Consultation Meetings/Telephone Calls.** Licensee met individually or talked by telephone individually with several resource agencies, tribes, and others.
- **Literature Searches.** Licensee conducted extensive searches of publicly available databases (*e.g.*, Internet websites, university libraries and publications) as well as its own records.

Appendix C provides a listing of references that contain existing, relevant and reasonably available information identified by Licensee during preparation of the Preliminary Information Package.

¹ These parties are collectively referred to as Relicensing Participants.
