Description

Section No.	Description	Page No.
	Executive Summary	ES-1
	Glossary	GLO-1
1.0	Introduction.....	1-1
1.1	Yuba County Water Agency.....	1-1
1.2	Yuba River Development Project.....	1-1
1.2.1	Lower Yuba River Accord	1-2
1.3	Relicensing Process	1-3
1.4	Licensee’s Early Consultation and Preliminary Information Package	1-4
1.5	Contents of Pre-Application Document.....	1-5
2.0	Process Plan, Schedule and Communication Guidelines.....	2-1
2.1	Yuba County Water Agency and Its Relicensing Goal and Principal Interests.....	2-1
2.1.1	Description of Yuba County Water Agency.....	2-1
2.1.2	Licensee’s Relicensing Goal.....	2-1
2.1.3	Licensee’s Principal Relicensing Interests.....	2-2
2.2	Process Plan and Schedule.....	2-3
2.2.1	Regulatory Relicensing Deadlines.....	2-3
2.2.2	Licensee’s Proposed Location and Dates of Scoping Meeting and Site Visit.....	2-6
2.2.3	Discretionary Activities	2-7
2.2.3.1	Early Study Proposal Development.....	2-7
2.2.3.2	Initiation of Studies Before FERC’s Study Determination.....	2-7
2.3	Relicensing Communication Guidelines.....	2-7
2.3.1	Objectives	2-7
2.3.2	Participation	2-8
2.3.2.1	Participants.....	2-8
2.3.2.2	Late Participation in the Relicensing	2-8
2.3.3	Relicensing Contact List.....	2-9
2.3.4	Relicensing Website	2-9
2.3.5	Relicensing Action Item Log.....	2-9
2.3.6	Meetings.....	2-10
2.3.6.1	Meeting Locations and Start Time.....	2-10
2.3.6.2	Event Calendar.....	2-10
2.3.6.3	Meeting Notice/Agenda.....	2-10
2.3.6.4	Telephone Calling into Planned In-Person Meetings	2-11
2.3.6.5	Meeting Moderation/Facilitation	2-12
2.3.6.6	Meeting Action Items and Decisions.....	2-12

Table of Contents (continued)

Section No.	Description	Page No.
2.3.6.7	Confidential Meetings.....	2-12
2.3.6.8	Decision Making.....	2-13
2.3.6.8.1	Use of “Collaboration” and “Consultation”	2-13
2.3.6.9	Attendance at Meetings.....	2-14
2.3.6.10	Preparation for Meetings.....	2-14
2.3.6.11	Caucus.....	2-14
2.3.6.12	Relicensing Participants Unable to Attend a Meeting	2-14
2.3.6.13	Planned Telephone Conference Calls (In Lieu of In-Person Meetings).....	2-14
2.3.6.14	Types of Meetings.....	2-14
2.3.7	Documents	2-15
2.3.7.1	FERC’s Documents	2-15
2.3.7.2	Non-Licensee or FERC Generated Documents	2-16
2.3.7.3	Licensees’ Documents	2-16
2.3.7.4	Collaboratively Developed Documents	2-16
2.3.7.5	Availability of Information in PAD.....	2-17
2.3.8	Monthly Anticipated Fieldwork Schedules	2-17
2.3.9	Field Data Availability.....	2-17
2.3.10	Periodic Reports to Meet FERC Requirements	2-18
2.3.10.1	Periodic Progress Reports	2-18
2.3.10.2	Initial and Updated Study Reports.....	2-18
2.3.11	Personal Conduct	2-18
2.3.11.1	Respect for Participants	2-18
2.3.11.2	Commitments.....	2-18
2.3.11.3	Communicating Interests	2-19
2.3.11.4	Good Faith	2-19
2.3.12	Communications	2-19
2.4	Integrated Licensing Process Flow Chart	2-19
2.5	List of Attachments.....	2-19
3.0	General Description of River Basin.....	3-1
3.1	Affected River Basin.....	3-1
3.1.1	Overview of the Yuba River Basin.....	3-3
3.1.1.1	North Yuba River Sub-basin.....	3-3
3.1.1.2	Middle Yuba River Sub-basin	3-5
3.1.1.3	South Yuba River Sub-basin.....	3-6
3.1.1.4	Yuba River Sub-basin.....	3-7

Table of Contents (continued)

Section No.	Description	Page No.
	3.1.2 Overview of Feather River Basin, Sacramento River, and Delta	3-8
3.2	Stream Reaches	3-8
3.3	Climate	3-10
3.4	Major Land Uses	3-11
3.5	Major Water Uses	3-11
3.6	Project-Affected Basin Streams and Tributaries.....	3-13
3.7	Basin Dams	3-14
3.8	List of Attachments.....	3-16
4.0	Major Applicable Laws.....	4-1
4.1	Federal Laws.....	4-1
4.1.1	Federal Power Act of 1920, as Amended (16 USC §§ 791-828c).....	4-1
4.1.2	Endangered Species Act of 1973, as Amended (16 USC §§ 1531 et seq.).....	4-2
4.1.3	National Historic Preservation Act (16 USC §§ 470 et seq.)	4-3
4.1.4	Wild and Scenic Rivers Act, as Amended (16 USC §§ 1271-1287)	4-4
4.1.5	Wilderness Act of 1964, as Amended (16 USC §§ 1131-1136.).....	4-4
4.1.6	Coastal Zone Management Act, as Amended (16 USC §§ 1451-1456)	4-5
4.1.7	National Environmental Policy Act of 1969 (42 USC §§ 4321 et seq.).....	4-5
4.1.8	Americans with Disabilities Act of 1990 (Public Law 101-336)	4-5
4.1.9	Clean Water Act of 1970, as Amended (33 USC §§ 1251 et seq.).....	4-5
4.1.10	Federal Land Policy and Management Act (16 USC § 1701)	4-9
4.1.11	Magnuson-Stevens Fishery Conservation and Management Act, as Amended (16 USC §§ 1801 et seq.)	4-9
4.2	California Laws.....	4-10
4.2.1	California Endangered Species Act (Fish and Game Code §§ 2050 – 2116) and Fully Protected Species Statutes (Fish and Game Code §§ 3505, 3511, 4700, 5050, 5515, and 5517)	4-10
4.2.2	California General Plan Law (Government Code §§ 65300 et seq.)	4-10
4.2.3	California Environmental Quality Act (Pub. Resources Code, §§ 21000 et seq.).....	4-11
4.2.4	California Wild and Scenic Rivers Act (Public Resources Code §§ 5093.50 et seq.).....	4-11
4.3	List of Attachments.....	4-12
5.0	Consistency with Comprehensive Plans	5-1
5.1	Qualifying Comprehensive Plans	5-1

Table of Contents (continued)

Section No.	Description	Page No.
5.1.1	Water Resources	5-2
5.1.1.1	California Water Plan (CDWR 1983) and California Water Plan Update (CDWR 1994)	5-2
5.1.1.2	Water Quality Control Plan for the Sacramento and San Joaquin River Basins (CVRWQCB 1998).....	5-2
5.1.1.3	Water Quality Control Plans and Policies (SWRCB 1999).....	5-3
5.1.1.4	Final Programmatic Environmental Impact Statement/Environmental Impact Report for the CALFED Bay-Delta Program (CDWR 2000).....	5-3
5.1.2	Aquatic Resources	5-4
5.1.2.1	Cooperative Agreement to Implement Actions to Benefit Winter-Run Chinook Salmon in the Sacramento River (CDFG et al. 1988)	5-4
5.1.3	Wildlife Resources.....	5-4
5.1.3.1	Central Valley Habitat Joint Venture Implementation Plan (USFWS et al. 1990).....	5-4
5.1.4	Threatened, Endangered, and Fully Protected Species.....	5-5
5.1.4.1	Restoring the Balance (California Advisory Committee on Salmon and Steelhead Trout 1988).....	5-5
5.1.4.2	Central Valley Salmon and Steelhead Restoration and Enhancement Plan (CDFG 1990a).....	5-5
5.1.4.3	Restoring Central Valley Streams Plan (CDFG 1993)	5-6
5.1.4.4	Steelhead Restoration and Management Plan for California (CDFG 1996).....	5-6
5.1.4.5	Final Restoration Plan for Anadromous Fish Restoration Program (USFWS 2001a).....	5-6
5.1.5	Recreation Resources.....	5-7
5.1.5.1	California Outdoor Recreation Plan (CDPR 1994)	5-7
5.1.5.2	Public Opinions and Attitudes in Outdoor Recreation (CDPR 1998)	5-7
5.1.5.3	Recreation Needs in California (California - The Resources Agencies 1983).....	5-7
5.1.5.4	The Recreational Fisheries Policy of the U.S. Fish and Wildlife Service (USFWS 1989)	5-8
5.1.6	Land Use.....	5-8
5.1.6.1	Tahoe National Forest Land and Resource Management Plan (USDA Forest Service 1990).....	5-8

Table of Contents (continued)

Section No.	Description	Page No.
	5.1.6.2 Plumas National Forest Land and Resource Management Plan (USDA Forest Service 1988).....	5-8
5.2	Non-Qualifying Comprehensive Plans and Agreements	5-9
5.2.1	SWRCB 1995 Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary	5-9
5.2.2	Draft Bay-Delta Conservation Plan (BDCP Steering Committee 2010).....	5-10
5.2.3	Delta Vision Strategic Plan (Delta Vision Blue Ribbon Task Force 2008) and Delta Vision Committee Implementation Report (Delta Vision Committee 2008).....	5-11
5.2.4	Lower Yuba River Accord.....	5-12
5.2.5	Lower Yuba River Fisheries Management Plan (CDFG 1991).....	5-12
5.2.6	Biological Opinion for Amendment of Yuba River Development Project License (NMFS 2005b)	5-12
5.2.7	Draft Recovery Plan (NMFS 2009a)	5-13
5.3	Other Ongoing FERC Relicensings in the Yuba River Basin	5-14
6.0	Project Facilities, Locations and Operations	6-1
6.1	Project Location	6-1
6.2	Project Facilities.....	6-3
	6.2.1 New Colgate Development 3	
	6.2.1.1 Our House Diversion Dam.....	6-3
	6.2.1.2 Lohman Ridge Diversion Tunnel.....	6-4
	6.2.1.3 Log Cabin Diversion Dam	6-4
	6.2.1.4 Camptonville Diversion Tunnel.....	6-4
	6.2.1.5 New Bullards Bar Reservoir	6-4
	6.2.1.6 New Bullards Bar Dam.....	6-5
	6.2.1.7 New Bullards Bar Dam Spillway.....	6-5
	6.2.1.8 New Colgate Power Tunnel and Penstock.....	6-5
	6.2.1.9 New Colgate Powerhouse	6-5
	6.2.1.10 New Colgate Switchyard	6-5
	6.2.1.11 Project Recreation Facilities	6-5
	6.2.1.12 Appurtenant Facilities and Features.....	6-6
	6.2.2 New Bullards Bar Minimum Flow Development.....	6-6
	6.2.2.1 New Bullards Minimum Flow Powerhouse Penstock	6-6
	6.2.2.2 New Bullards Minimum Flow Powerhouse.....	6-6
	6.2.2.3 New Bullards Minimum Flow Transformer	6-6
	6.2.2.4 Appurtenant Facilities and Features.....	6-6

Table of Contents (continued)

Section No.	Description	Page No.
6.2.3	Narrows 2 Development	6-6
6.2.3.1	Narrows 2 Powerhouse Penstock.....	6-6
6.2.3.2	Narrows 2 Powerhouse	6-7
6.2.3.3	Narrows 2 Powerhouse Switchyard	6-7
6.2.3.4	Appurtenant Facilities and Features.....	6-7
6.3	Project Operations.....	6-7
6.3.1	Major Operational Considerations.....	6-7
6.3.1.1	Assurance of Public and Employee Safety	6-7
6.3.1.2	Anticipated Water Availability	6-7
6.3.1.3	Compliance with Water Rights.....	6-9
6.3.1.4	Compliance with the FERC License.....	6-10
6.3.1.5	Adherence to USACE Flood Control Requirements	6-11
6.3.1.6	Adherence to the Lower Yuba River Accord Minimum Flow Schedules	6-12
6.3.1.7	Compliance with Minimum Flow Requirements.....	6-14
6.3.1.8	Water Supply Deliveries	6-16
6.3.1.9	Power Generation.....	6-17
6.3.1.10	Ramping and Flow Fluctuations	6-18
6.3.2	Typical Operations.....	6-18
6.3.2.1	Baseflow, Storm Runoff, and Flood Control Flows	6-18
6.3.2.2	Representative Water Year Examples	6-20
6.4	FERC License and Other Project Information.....	6-22
6.4.1	Current FERC License Requirements.....	6-22
6.4.2	Current FERC License Maps, Design Drawings and Plans.....	6-38
6.4.2.1	Project Maps (Exhibits J and K)	6-38
6.4.2.2	Project Design Drawings (Exhibit L)	6-39
6.4.2.3	Project Recreation Map (Exhibit R)	6-40
6.4.2.4	Other FERC License Plans	6-41
6.4.3	Compliance History of the Project.....	6-41
6.5	Summary of Project Generation and Outflow Records	6-41
6.5.1	Flow and Generation.....	6-41
6.5.2	Monthly and Annual Energy Generation and Dependable Capacity.....	6-42
6.5.2.1	Monthly and Annual Energy Generation.....	6-42
6.5.2.2	Dependable Capacity	6-43

Table of Contents (continued)

Section No.	Description	Page No.
6.6	Current Net Investment.....	6-45
6.7	Proposed New Generation Facilities and/or Changes in Project Operation to Increase Generation	6-45
6.8	List of Attachments.....	6-45
7.0	Description of Existing Environment	7-1
7.1	Geology and Soils.....	7.1-1
7.1.1	Overview.....	7.1-1
7.1.2	Geologic Features	7.1-1
7.1.3	Tectonic History.....	7.1-3
7.1.4	Mineral Resources	7.1-4
7.1.5	Physiography and Geomorphology.....	7.1-6
7.1.6	Erosion and Sedimentation	7.1-9
7.1.7	Soils.....	7.1-10
7.1.8	Existing Information	7.1-13
7.1.8.1	Upstream of the Project Area.....	7.1-13
7.1.8.1.1	Yuba-River Hydroelectric Project and Drum-Spaulding Project Relicensings.....	7.1-13
7.1.8.1.2	South Feather Power Project Relicensing.....	7.1-15
7.1.8.1.3	Slate Creek Sediment Pass-Through.....	7.1-16
7.1.8.1.4	Sediment Supply and Transport Study	7.1-16
7.1.8.1.5	Sediment Supply from SFWPA Facilities	7.1-18
7.1.8.1.6	Large Woody Debris in Slate Creek and Slate Creek Reservoir	7.1-18
7.1.8.2	In the Project Area	7.1-20
7.1.8.2.1	Slope Stability Downstream of New Bullards Bar Dam	7.1-20
7.1.8.2.2	Sediment Removal in Our House Diversion Dam Impoundment	7.1-20
7.1.8.2.3	Sediment Removal in Log Cabin Diversion Dam Impoundment	7.1-21
7.1.8.2.4	Erosion Along Reservoir/Impoundment Shorelines.....	7.1-21
7.1.8.2.5	Initial Channel Classification and Habitat Mapping upstream of USACE’s Englebright Reservoir.....	7.1-21
7.1.8.3	Downstream of the Project Area.....	7.1-30
7.1.9	List of Attachments.....	7.1-35

Table of Contents (continued)

Section No.	Description	Page No.
7.2	Water Resources	7.2-1
7.2.1	Overview.....	7.2-1
7.2.2	Drainage Areas of Yuba River Sub-basins	7.2-1
7.2.3	Stream Reaches Affected by the Project.....	7.2-2
7.2.4	Morphometric Data for Existing Project Reservoirs	7.2-2
7.2.5	Streamflow, Gage Data, and Flow Statistics	7.2-3
7.2.5.1	Streamflow and Other Gages in the Project Vicinity.....	7.2-3
7.2.5.2	Regulated Hydrology Data for Project Facilities and Potentially Affected Sections of the Yuba River and Tributaries.....	7.2-5
7.2.5.2.1	Historic Overview.....	7.2-6
7.2.5.2.2	Time Period Setting	7.2-6
7.2.5.2.3	Comparison of Hydrologies.....	7.2-7
7.2.5.2.3	Project Conditions.....	7.2-11
7.2.6	Existing Instream Flow Designated Beneficial Uses	7.2-41
7.2.7	Applicable Water Quality Standards	7.2-41
7.2.8	Existing and Proposed Water Rights Potentially Affecting or Affected by the Project	7.2-43
7.2.8.1	Water Rights Upstream of the Project Area That Affect the Project	7.2-43
7.2.8.1.1	South Feather Power Project.....	7.2-43
7.2.8.1.2	Yuba-Bear Hydroelectric Project.....	7.2-44
7.2.8.1.3	Drum-Spaulding Project	7.2-45
7.2.8.2	Water Rights within the Project Area	7.2-46
7.2.8.3	Water Rights Downstream of the Project Area Affected by the Project	7.2-46
7.2.9	Existing Water Quality Information	7.2-48
7.2.9.1	Licensee’s Water Temperature Data Collection Network... ..	7.2-49
7.2.9.1.1	Water Temperature Upstream of the Project Area.....	7.2-53
7.2.9.1.2	Water Temperature Within the Project Area ..	7.2-56
7.2.9.1.3	Water Temperature Downstream of the Project Area	7.2-63
7.2.9.2	Water Chemistry	7.2-66
7.2.9.2.1	Water Chemistry Upstream of the Project Area.....	7.2-66
7.2.9.2.2	Water Chemistry within the Project Area.....	7.2-71

Table of Contents (continued)

Section No.	Description	Page No.
	7.2.9.2.3 Water Chemistry Downstream of the Project Area.....	7.2-77
	7.2.9.3 Mercury in the Yuba Watershed.....	7.2-80
	7.2.10 List of Attachments.....	7.2-83
7.3	Aquatic Resources	7.3-1
	7.3.1 Overview.....	7.3-1
	7.3.2 Historic Distribution of Fish and Influences Affecting Yuba River Fisheries	7.3-1
	7.3.2.1 Historic Distribution	7.3-1
	7.3.2.2 Anadromous Fish.....	7.3-3
	7.3.3 Special-status Aquatic Species	7.3-5
	7.3.3.1 Fishes	7.3-7
	7.3.3.2 Amphibians.....	7.3-13
	7.3.3.3 Aquatic Reptiles and Turtles.....	7.3-14
	7.3.4 Aquatic Resources of the Yuba River Area.....	7.3-14
	7.3.4.1 Upstream of the Project Area.....	7.3-15
	7.3.4.2 Within the Project Area... ..	7.3-34
	7.3.4.3 Downstream of the Project Area.....	7.3-52
	7.3.5 List of Attachments.....	7.3-54
7.4	Wildlife Resources.....	7.4-1
	7.4.1 Overview.....	7.4-1
	7.4.2 Wildlife Habitat	7.4-1
	7.4.3 Special-Status Wildlife Species	7.4-3
	7.4.3.1 Definition of Special-Status Wildlife Species	7.4-3
	7.4.3.2 Special-Status Wildlife Species with the Potential to Occur in the Project Area.....	7.4-3
	7.4.4 Commercially Valuable Wildlife Species.....	7.4-8
	7.4.5 Wildlife Resources of the Yuba River	7.4-14
	7.4.5.1 Upstream of Project Area	7.4-14
	7.4.5.1.1 Nevada Irrigation District Pre-Application Document.....	7.4-14
	7.4.5.1.2 Sierra Nevada Forest Management Indicator Species Amendment.....	7.4-15
	7.4.5.1.3 Downieville/Nevada City Deer Herd Management Plan	7.4-15
	7.4.5.1.4 Bucks Mountain/Mooretown Deer Herd Management Plan	7.4-15

Table of Contents (continued)

Section No.	Description	Page No.
7.4.5.1.5	An Assessment of Mule and Black-tailed Deer Habitats and Populations in California ..	7.4-16
7.4.5.1.6	California Wildlife Habitat Relationships	7.4-16
7.4.5.1.7	California Natural Diversity Database.....	7.4-16
7.4.5.1.6	Nevada Irrigation District Special-Status Bat Survey	7.4-16
7.4.5.2	Wildlife Resources in Project Area.....	7.4-17
7.4.5.2.1	Lower Yuba River Accord Final EIR/EIS	7.4-17
7.4.5.2.2	Downieville/Nevada City Deer Herd Management Plan.....	7.4-20
7.4.5.2.3	Bucks Mountain/Mooretown Deer Herd Management Plan.....	7.4-20
7.4.5.2.4	An Assessment of Mule and Black-tailed Deer Habitats and Populations in California ..	7.4-21
7.4.5.2.5	University of California Agriculture and Natural Resources, SFREC.....	7.4-21
7.4.5.2.6	Final Environmental Impact Report (FEIR) on the Cumulative Impacts of Rural Residential Development on Migratory Deer in Yuba County	7.4-21
7.4.5.2.7	Downieville Deer Herd Trapping Program – 1977.....	7.4-22
7.4.5.2.8	D3 Deer Telemetry Study Preliminary Report.....	7.4-22
7.4.5.2.9	2008 California Deer Kill Report	7.4-23
7.4.5.3	Downstream of the Project Area	7.4-23
7.4.5.3.1	Lower Yuba River Accord FEIR/EIS.....	7.4-23
7.4.5.3.2	California Natural Diversity Database	7.4-24
7.4.6	List of Attachments.....	7.4-24
7.5	Botanical Resources.....	7.5-1
7.5.1	Overview	7.5-1
7.5.2	Special-Status Plants	7.5-1
7.5.3	Noxious Weeds and Other Invasive Plants.....	7.5-5
7.5.4	Botanical Resources in the Yuba River Area	7.5-7
7.5.4.1	Upstream of the Project Area.....	7.5-7
7.5.4.1.1	Upstream Relicensing Studies (NID and PG&E 2010n)	7.5-7
7.5.4.2	In the Project Area	7.5-7

Table of Contents (continued)

Section No.	Description	Page No.
	7.5.4.2.1 CalVeg Mapping (USFS 2004).....	7.5-7
	7.4.5.2.2 Plumas National Forest (1991, 2000, 2001, 2004)	7.5-15
	7.4.5.2.3 Yuba County Water Agency et al. (2007)	7.5-15
	7.5.4.3 Downstream of the Project Area	7.5-15
7.5.5	List of Attachments.....	7.5-16
7.6	Wetland, Riparian, and Littoral Habitats	7.6-1
7.6.1	Overview.....	7.6-1
7.6.2	Wetlands, Riparian, and Littoral Habitats of the Project Area	7.6-1
7.6.2.1	Wetlands	7.6-1
7.6.2.1.1	Palustrine Emergent (PEM)	7.6-3
7.6.2.1.2	Palustrine Scrub-Shrub (PSS).....	7.6-3
7.6.2.1.3	Palustrine Forested (PFO).....	7.6-3
7.6.2.1.4	Riverine Unconsolidated Bottom (RUB).....	7.6-3
7.6.2.1.5	Riverine Streambed (RSB)	7.6-3
7.6.2.2	Riparian Habitat	7.6-4
7.6.2.2.1	White Alder Alliance	7.6-4
7.6.2.2.2	Valley Oak Alliance.....	7.6-4
7.6.2.2.3	Willow Alliance	7.6-4
7.6.2.3	Littoral Habitat.....	7.6-5
7.6.3	Wetlands, Riparian, and Littoral Habitats Downstream of the 7.6- Project Area	7.6-.5
7.6.4	List of Attachments.....	7.6-7
7.7	Threatened, Endangered, and Fully Protected Species	7.7-1
7.7.1	Overview.....	7.7-1
7.7.2	Federal Endangered Species Act	7.7-1
7.7.2.1	Listed Plants and Animals	7.7-1
7.7.3	State of California Endangered Species Act Species and Fully Protected Species	7.7-6
7.7.3.1	Listed Plants and Animals	7.7-6
7.7.4	Life Histories of Threatened, Endangered, Candidate, and Fully Protected Species	7.7-8
7.7.4.1	ESA and CESA Listed Species.....	7.7-8
7.7.4.1.1	Pine Hill flannelbush (FE)	7.7-8
7.7.4.1.2	Layne’s ragwort (FT).....	7.7-9
7.7.4.1.3	Stebbins’ morning glory (FE, SE)	7.7-9

Table of Contents (continued)

Section No.	Description	Page No.
	7.7.4.1.4 Hartweg’s golden sunburst (FE, SE)	7.7-10
	7.7.4.1.5 Valley elderberry longhorn beetle (FT)	7.7-10
	7.7.4.1.6 Vernal pool fairy shrimp (FT).....	7.7-11

7.13.2	Background Research	7.13-2
7.13.2.1	Identification of Potentially-Affected Native American Tribes	7.13-3
7.13.2.2	Identification of Known Indian Trust Assets and Traditional Cultural Properties	7.13-5
7.13.3	Ethno-history.....	7.13-6
7.13.4	List of Attachments.....	7.13-6
8.0	Potential or Known Issues and Project Effects	8-1
8.1	Definitions.....	8-1
8.1.1	Issues.....	8-1
8.1.2	Effects	8-1
8.2	Identification of Preliminary Issues and Project Effects.....	8-2
8.2.1	PAD Information Questionnaire	8-2
8.2.2	Issues/Effects Identification Meeting	8-2
8.3	Preliminary Issues/Effects List	8-3
8.3.1	Geology and Soils.....	8-3
8.3.2	Water Resources	8-4
8.3.3	Aquatic Resources	8-6
8.3.4	Wildlife Resources.....	8-7
8.3.5	Botanical Resources.....	8-8
8.3.6	Riparian, Wetlands and Littoral Habitat	8-8

Table of Contents (continued)

Section No.	Description	Page No.
8.3.7	Threatened, Endangered and Fully Protected Species	8-8
8.3.8	Recreational Resources	8-9
8.3.9	Land Use	8-9
8.3.10	Socio-economic Resources	8-9
8.3.11	Aesthetic Resources	8-10
8.3.12	Cultural Resources	8-10
8.3.13	Tribal Resources	8-10
8.3.14	Air Quality	8-10
8.3.15	Noise	8-10
8.4	Identified Preliminary Issues/Effects Licensee Believes Are Outside the Scope of the Relicensing.....	8-10
8.4.1	G&S-13: Effects of the Project on local aquifers and wells	8-11
8.4.2	WR-10: Effects of the Project on water temperature, specifically with regards to fish and yield of rice and other agricultural crops in the pre-1970, 1970-1993 and post 1993 periods.....	8-11
8.4.3	WR-11: Effects of predictive climate change over the next 50 years on resources in connection with existing forecasted effects of the Project, including water temperatures.....	8-11
8.4.4	WR-13: Effects of the Project on water conservation for agricultural and residential users (i.e., What are current water losses in agricultural and residential water supply ditches and what would be the savings in water if the ditches were converted to pipes or Best Management Practices (BMP) were put in place for the ditches?)	8-12
8.4.5	WR-14: Effects of the Project on different water delivery systems, such as piping verses open ditches.....	8-12
8.4.6	WR-15: Effect of the Project on flood management	8-12
8.4.7	AR-21: Effect of the Project on fish due to restricted passage at USACE’s Englebright Dam, New Bullards Bar Dam and Our House and Log Cabin diversion dams	8-13
8.4.8	AR-22: Effects of the Project on anadromous fish from New Bullards Bar Dam and downstream due to changes in the timing and amount of attraction and migration flows	8-14
8.4.9	AR-23: Effects of the Project on anadromous fish outmigration from New Bullards Bar Reservoir downstream due to changes in the timing and amount of flows	8-14

Table of Contents (continued)

Section No.	Description	Page No.
8.4.10	AR-24: Effects of the Project on amphibian/aquatic reptile habitat at the reservoir and tributary sources upstream of the reservoir and survey to assess occupied sites by species abundance and potential of risk associated with reservoir operation and impoundment	8-14
8.4.11	AR-25: Effects of the Project on wild trout (e.g., effects due to introduction of hatchery fish from Englebright Reservoir during spills).....	8-15
8.4.12	AR-26: Effect of the Project on fish passage, and potential enhancements for fall-run Chinook salmon.....	8-15
8.4.13	T&E-6: Effect of the Project on anadromous fish attraction and migration flows due to releases from New Bullards Bar Dam	8-15
8.4.14	T&E-7: Effect of the Project on anadromous fish outmigration flow and timing due to releases from New Bullards Bar Dam	8-15
8.4.15	T&E-8: Effect of the Project on spring-run Chinook salmon and steelhead due to migration barriers	8-16
8.4.16	T&E-9: Effect of the Project on spring-run Chinook salmon, steelhead and North American green sturgeon due to migration barriers at USACE’s Englebright Dam, New Bullards Bar Dam, Our House Diversion Dam and Log Cabin Diversion Dam	8-16
8.4.17	LU-4: Effect of Forest Service/YCWA Recreation Plan on the Camptonville community needs (e.g., is it effective in addressing community needs?).....	8-16
8.3	List of Attachments.....	8-16
9.0	Existing and Licensee Proposed Measures	9-1
9.1	Introduction.....	9-1
9.2	Existing Measures.....	9-1
9.3	Licensee’s Preliminary Proposed Measures	9-2
9.3.1	FERC’s Form L-5 Standard Articles	9-2
9.3.2	Other Licensee Proposed Measures	9-9
9.4	Measures in Existing License Not Proposed by Licensee at This Time.....	9-10
9.4.1	Administrative-Type Articles in Existing License Not Proposed by Licensee	9-10
9.4.2	Articles in Existing License Not Proposed by Licensee at This Time	9-10
9.5	Potential Measures Recommended by Relicensing Participants	9-11
9.6	List of Attachments.....	9-12
10.	Licensee’s Preliminary Proposed Studies.....	10-1
10.1	Collaborative Study Proposal Development Process.....	10-1

Table of Contents (continued)

Section No.	Description	Page No.
10.2	Licensee’s Preliminarily Proposed Studies.....	10-2
10.2.1	Study Proposal Template	10-2
10.2.2	Licensee’s Preliminary Proposed Studies.....	10-3
10.3	Potential Studies Requested by Relicensing Participants	10-10
10.4	List of Attachments.....	10-11
11.0	References Cited.....	11-1

List of Tables

Table No.	Description	Page No.
2.2-1	Project relicensing regulatory deadlines based on filing the NOI and PAD on November 1, 2010.....	2-4
3.2-1	Stream Reaches Potentially Affected by Continued Project Operations	3-9
3.5-1	Beneficial uses of surface water within the Project Area and the area downstream as designated by HU in the Basin Plan.....	3-12
3.6-1	Streams and tributaries to the North, Middle, South, and main stem Yuba River.....	3-13
3.7-1	Owners and capacities of dams and diversions in the Yuba River Basin.....	3-15
4.1.9-1	Beneficial uses of surface water within the Project and the area downstream as designated by HU in the Basin Plan	4-7
6.3.1-1	Water right licenses held by Licensee for operation of the Project for power generation.....	6-9
6.3.1-2	New Bullards Bar Reservoir flood storage space allocation in thousands of acre-feet.....	6-11
6.3.1-3	Yuba Accord flow schedules	6-12
6.4.1-1	List of active requirements in Yuba County Water Agency’s current Federal Energy Regulatory Commission license for the Yuba River Development Project (FERC Project No. 2246)	6-23
6.5.2-1	Average monthly gross generation for calendar year 2004 through 2008 at Project powerhouses	6-42
7.1.2-1.	Description of generalized geologic rock types in the Project Vicinity	7.1-2
7.1.4-1.	Mines in the Yuba River Development Project Vicinity.....	7.1-5
7.1.5-1.	Description of geomorphology map units designated on the Tahoe National Forest within the FERC boundary	7.1-7
7.1.7-1.	Soil associations in the Yuba River Hydroelectric Project Vicinity	7.1-10
7.1.7-2.	Soil series and order summary description in the Project Vicinity	7.1-11
7.1.8-1.	Reservoir sedimentation and sediment yield (SFWPA 2007).....	7.1-17

List of Tables (continued)

Table No.	Description	Page No.
7.1.8-2.	Parameters relevant to channel types expected within gradient and confinement classes, separated by channel type	7.1-23
7.1.8-3.	Project reach summary	7.1-24
7.1.8-4.	Oregon Creek and North Yuba River below Bullards Bar - hypothesized dominant channel condition based on gradient and confinement.....	7.1-27
7.2.2-1	Drainage areas of Yuba River sub-basins.....	7.2-1
7.2.3-1	Stream reaches affected by the Project by sub-basin.1	7.2-2
7.2.4-1	Morphometric information regarding Project reservoirs	7.2-2
7.2.5-1	Streamflow gages and Project tunnel, powerhouse, and reservoir gages	7.2-3
7.2.7-1	Water quality objectives to support designated beneficial uses in the Project Vicinity	7.2-41
7.2.8-1	North Yuba River sub-basin diversions by SFWPA South Feather Power Project - Slate Creek diversions for representative water year types.....	7.2-44
7.2.8-2	Middle Yuba River sub-basin diversions by NID’s Yuba-Bear Hydroelectric Project – Milton Diversion Dam diversions for representative water year types .	7.2-44
7.2.8-3	South Yuba River sub-basin diversions by NID’s Yuba-Bear Hydroelectric Project – Bowman-Spaulding Diversion Dam and Conduit diversions for representative water year types.....	7.2-45
7.2.8-4	South Yuba River sub-basin diversions by PG&E’s Drum-Spaulding Project – Spaulding Dam diversions for representative water year types.....	7.2-45
7.2.8-5	Cumulative South Yuba River sub-basin diversions by PG&E’s Drum-Spaulding Project and NID’s Yuba-Bear Hydroelectric Project – diversions for representative water year types	7.2-45
7.2.8-6	Yuba County Water Agency’s annual contract amounts and place of delivery ...	7.2-46
7.2.8-7.	Yuba County Water Agency water supply contract shortage provisions.....	7.2-48
7.2.9-1	Key of Licensee’s active stream temperature data collection locations	7.2-50
7.2.9-2	Existing and relevant water chemistry data upstream of the Project Area	7.2-67
7.2.9-3	Existing and relevant water quality data within the Project Area.....	7.2-72
7.2.9-4	Existing and relevant water quality data downstream of the Project Area	7.2-78
7.2.9-5	Mercury measured in fish tissue collected from the Project Vicinity.....	7.2-81
7.3.4-1	Distribution of fish species relative to river mile and stream temperature observed during 2004 Middle Yuba River snorkel surveys upstream of Our House Diversion Dam	7.3-17
7.3.4-2	Distribution of fish relative to river mile and stream temperature observed during 2004 South Yuba River snorkel surveys.....	7.3-19
7.3.4-3	Fish species known or likely to occur in stream reaches upstream of the Project.20	
7.3.4-4.	Location and height of migration barriers found on the South Yuba River between USACE’s Englebright Reservoir and Spaulding Dam.....	7.3-20

List of Tables (continued)

Table No.	Description	Page No.
7.3.4-5	General distribution of amphibian species that have been reported in the vicinity of the Yuba-Bear Hydroelectric Project and the Drum-Spaulding Project (NID 2008; PG&E 2008).....	7.3-26
7.3.4-6	General distribution of amphibian species considered for inclusion, but determined not to occur in the Project Vicinity	7.3-27
7.3.4-7	Aquatic reptile and turtle species that have been reported from the Project Vicinity.....	7.3-29
7.3.4-8	Orders and families of aquatic macroinvertebrates (all insects) that were found in three studies of high elevation Sierra Nevada streams upstream of the Project Area.....	7.3-30
7.3.4-9	Summary of aquatic invertebrate species collections in the Sierra Nevada.....	7.3-32
7.3.4-10	Invertebrate biological metrics from November 1999 CSBP sampling of Slate Creek	7.3-33
7.3.4-11	Distribution of fish species relative to river mile and stream temperature observed during 2004 Middle Yuba River snorkel surveys downstream of Our House Diversion Dam	7.3-35
7.3.4-12	Location and height of migration barriers found on the Middle Yuba River from the confluence with the North Yuba River to Our House Diversion Dam.....	7.3-36
7.3.4-13	Game fish species known to occur in New Bullards Bar Reservoir and USACE’s Englebright Reservoir	7.3-36
7.4.2-1	Wildlife habitat types in the Project Area and their equivalent vegetation community types	7.4-2
7.4.3-1	Special-Status wildlife species (i.e., reptiles, birds, and mammals) occurring or potentially occurring in the Project Area	7.4-4
7.4.4-1	Commercially valuable wildlife species occurring or potentially occurring in the Project Area.....	7.4-10
7.4.5-1	Special-Status species identified in the Lower Yuba River Accord FEIR/EIS as having the potential to occur within, and be affected by the Lower Yuba River Accord Proposed Project/Action alternatives	7.4-19
7.5.2-1	Special-status plants known or with the potential to occur in the Project Vicinity.....	7.5-2
7.5.3-1	Noxious weeds and other invasive species of concern to the Forest Service known to occur or potentially occurring in the Project Vicinity.....	7.5-5
7.5.4-1	Acres of each CalVeg vegetation classification in the Project Area Mapped.....	7.5-8
7.6.2-1	NWI palustrine and riverine wetland classes within the Project Area	7.6-2
7.7.2-1	Federally and State of California threatened or endangered species and State Fully Protected species occurring or potentially occurring in the Project Vicinity	7.7-3
7.7.2-2	Preliminary data representing counts of <i>O. mykiss</i> ascending Daguerre Point Dam.....	7.7-16

List of Tables (continued)

Table No.	Description	Page No.
7.7.2-3	Preliminary data representing counts of adult spring-run Chinook salmon ascending Daguerre Point Dam	7.7-24
7.8.2-1	Summary of Yuba County boating ordinance at New Bullards Bar Reservoir	7.8-4
7.8.2-2	Summary of Yuba County house boating ordinance at New Bullards Bar Reservoir	7.8-5
7.8.2-3	Summary of Project recreation facilities and other on-site amenities at New Bullards Bar Reservoir.....	7.8-7
7.8.2-4	2009 camping fees at New Bullards Bar Reservoir	7.8-9
7.8.3-1	CDFG fishing regulations on the North Yuba River	7.8-18
7.8.3-2	Campgrounds, day use and trail facilities on the North Yuba River, upstream of New Bullards Bar Reservoir to Downieville.....	7.8-19
7.8.3-3	Known whitewater boating reaches on the North Yuba River	7.8-20
7.8.3-4	Length of run by flow and type of run.....	7.8-21
7.8.3-5	Boaters’ opinion of the boatability of the run at each flow for different types of craft (complete run)	7.8-21
7.8.3-6	Boaters’ evaluation of flow levels for hard-shell kayaks at the expert/elite skill level.....	7.8-22
7.8.3-7	Average flow level responses by skill level to various flow scenarios.....	7.8-22
7.8.3-8	How New Bullards Bar Dam Run compares to similar established whitewater reaches in California	7.8-23
7.8.3-9	Summary of existing and study information on the New Bullards Bar Dam Reach.....	7.8-24
7.8.3-10	Known whitewater boating reaches on the Middle and mainstem Yuba River....	7.8-26
7.8.3-11	CDFG fishing regulations on the mainstem Yuba River	7.8-27
7.8.3-12	Known whitewater boating reaches on the Mainstem Yuba River.....	7.8-27
7.8.4-1	Project recreation use in Recreation Days at New Bullards Bar Reservoir in 1996, 2002, and 2008 (based on the FERC Form 80 Recreation Report every 6 years).....	7.8-28
7.8.4-2	Total number of camping sites occupied at New Bullards Bar Reservoir Campgrounds from 2003 through 2008.....	7.8-28
7.8.4-3	Number of sites occupied and percent capacity at each of the New Bullards Bar Reservoir campgrounds from 2007 through 2008	7.8-29
7.8.4-4	Peak number of observed boats-at-one-time (BAOT), peak capacity and the number and type of carrying capacity exceedence days.....	7.8-30
7.8.5-1	California’s top 15 recreation activities with high latent demand	7.8-32
7.9.2-1	Distribution of public and private lands in Yuba County2	
7.9.2-2	Yuba County Zoning Ordinance land use categories in the Project Vicinity	7.9-2

List of Tables (continued)

Table No.	Description	Page No.
7.9.3-1	Summary of land ownership within the existing FERC Project Boundary by Project Development based on information provided by the County Assessor.....	7.9-6
7.9.3-2	Summary of county land within the existing FERC Project Boundary by Project Development based on the Relicensing GIS database.	7.9-7
7.9.3-3	PNF Management Areas standards and guidelines for New Colgate Development facilities	7.9-.8
7.9.3-4	TNF Management Areas standards and guidelines for New Colgate Development facilities	7.9-.8
7.9.3-5	Yuba County General Plan Land Use Designations for New Colgate Development facilities.	7.9-9
7.9.3-6	Yuba County General Plan Land Use Designations for New Bullards Bar Minimum Flow Development facilities	7.9-10
7.9.3-7	Property Management Plans for Narrows 2 Development facilities	7.9-.10
7.9.3-8	Yuba County General Plan Land Use Designations for Narrows 2 Development facilities	7.9-10
7.9.3-9	Summary of Project facility operation and maintenance primary roads and trails.....	7.9-13
7.10.3-1	Forest Service Aesthetic Visual Quality Objectives in the Project Vicinity	7.10-3
7.10.3-2	BLM Visual Resource Management Objectives.....	7.10-4
7.10.4-1	Aesthetic character of Project features within the New Colgate Development..	7.10-10
7.10.4-2	Aesthetic character of Project features within the New Bullards Minimum Flow Development.....	7.10-12
7.10.4-3	Aesthetic character of Project features within the Narrows 2 Development	7.10-13
7.11.2-1	Summary of Yuba County population and housing units, 1960-2010.....	7.11-2
7.11.2-2	Summary of Yuba County by age group, 2009	7.11-2
7.11.2-3	Summary of household units and income in Yuba County and the state of California	7.11-3
7.11.2-4	Summary of population by gender and race in Yuba County and the state of California, 2000	7.11-3
7.11.2-5	Summary of industry statistics for Yuba County, 2005.....	7.11-4
7.11.3-1	Summary of Sierra County population and housing units, 1960 - 2010.....	7.11-6
7.11.3-2	Summary of population in Sierra County by age group, 2009	7.11-6
7.11.3-3	Summary of household units, homeownership, home value, and income in Sierra County and the State of California.	7.11-6
7.11.3-4	Summary of population by gender and race in Sierra County and the state of California for 2000.....	7.11-7
7.11.3-5	Summary of industry statistics for Sierra County, 2005.....	7.11-8

List of Tables (continued)

Table No.	Description	Page No.
7.11.4-1	Federal, State, and local agencies Licensee pays annually for Project-related services.....	7.11-8
7.12.2-1	Previously recorded cultural resources within the Project APE	7.12-4
7.12.2-2	Potential historic-period sites within the Project Data Gathering Area.....	7.12-6
7.12.2-3.	Previous cultural resources investigations within the Project Data Gathering Area.....	7.12-7
7.13.2-1	Tribes and tribal representatives contacted as of September 18, 2009	7.13-3
9.3.1-1	Measures proposed by Licensee that are the same as FERC’s Terms and Conditions of License for Constructed Project Affecting Navigable Waters and Lands of the United States (Form L-5 Standard Articles), resource areas to which each applies, and corresponding measure in the existing license for the Yuba River Development Project	9-3
10.2.2-1	Potential issues/effects by resource area and whether existing information is adequate to address the issue/effect and, if not, Licensee’s preliminary proposed study to address the issue/effect	10-4

List of Figures

Figure No.	Description	Page No.
2.4-1	FERC’s Integrated Licensing Flowchart	2-20
3.1-1	Sub-basins of the Yuba River.....	3-2
6.1-1	Yuba River Development Project in relation to the Yuba River and other tributaries to the Sacramento River.....	6-2
6.3.1-1	Yuba Accord North Yuba Water Year Type Index	6.3-13
6.3.1-2	Minimum instream flow requirements and actual flows at Marysville Gage in 2008	6.3-15
6.3.1-3	Minimum instream flow requirements and actual flows at Smartville Gage in 2008	6.3-16
6.3.2-1	Project releases and storage in a representative Wet Water Year – 1998.....	21
6.3.2-2	Project releases and storage in a representative Normal Water Year – 2005	6.3-21
6.3.2-3	Project releases and storage in a representative Dry Water Year – 2001	6.3-22
7.1.8-1	Longitudinal profile of Middle Yuba River between Our House Diversion Dam and the North Yuba River	7.1-26
7.1.8-2	Longitudinal profile and channel classification of Oregon Creek	7.1-27
7.1.8-3	Longitudinal profile and initial channel classification of North Yuba between the junction with Middle Yuba and New Bullards Bar Dam.....	7.1-28
7.1.8-4	Longitudinal profile and initial channel classification of Yuba River between the New Colgate Powerhouse and the Middle/North Yuba junction.....	7.1-29

List of Figures (continued)

Figure No.	Description	Page No.
7.1.8-5	Longitudinal profile of Yuba River below Timbuctoo Bend.....	7.1-34
7.1.2-1	Geologic map of the Project Vicinity	7.1-37
7.1.4-1	Active and inactive mines in the Project Vicinity	7.1-38
7.1.5-1	Geomorphology of the Tahoe National Forest within the Project Vicinity.....	7.1-39
7.1.6-1	Slopes in the Project Vicinity	7.1-40
7.1.7-1	Soil associations in the Project Vicinity	7.1-41
7.2.4-1	New Bullards Bar Reservoir storage-area-elevation curves	7.2-3
7.2.5-1	Schematic of the Project Vicinity, including USGS gage identification numbers.....	7.2-5
7.2.5-2	Flow exceedance of historical mean daily streamflow at Marysville gage for January	7.2-8
7.2.5-3	Flow exceedance of historical mean daily streamflow at Smartville gage for January	7.2-8
7.2.5-4	Flow exceedance of historical mean daily streamflow at Marysville gage for April.....	7.2-9
7.2.5-5	Flow exceedance of historical mean daily streamflow at Smartville gage for April.....	7.2-9
7.2.5-6	Flow exceedance of historical mean daily streamflow at Marysville gage for October	7.2-10
7.2.5-7	Flow exceedance of historical mean daily streamflow at Smartville gage for October	7.2-10
7.2.5-8	Mean daily streamflow on the lower Yuba River for July through November of 1951	7.2-11
7.2.5-9	Mean daily streamflow on the lower Yuba River for 1959 through 1961.....	7.2-11
7.2.5-10	Average monthly streamflow for the North Yuba River below Goodyears Bar gage (USGS 11413000) from WY 1970 through WY 2008.....	7.2-12
7.2.5-11	Historical mean daily streamflow each year for the North Yuba River below Goodyears Bar gage (USGS Gage 11413000) from WY 1970 through WY 2008.....	7.2-12
7.2.5-12	Flow exceedance of historical mean daily streamflow for the North Yuba River below Goodyears Bar gage (USGS Gage 11413000) from WY 1970 through WY 2008	7.2-13
7.2.5-13	Average monthly streamflow for Slate Creek below SFWPA’s Slate Creek Diversion Dam (USGS Gage 11413300) from WY 1970 through WY 2008.....	7.2-14
7.2.5-14	Historical mean daily streamflow each year for Slate Creek below SFWPA’s Slate Creek Diversion Dam (USGS Gage 11413300) from WY 1970 through WY 2008.....	7.2-14

List of Figures (continued)

Figure No.	Description	Page No.
7.2.5-15	Flow exceedance of historical mean daily streamflow for Slate Creek below SFWPA’s Slate Creek Diversion Dam (USGS Gage 11413300) from WY 1970 through WY 2008	7.2-15
7.2.5-16	Average monthly storage for New Bullards Bar Reservoir (USGS Gage 11413515) from WY 1970 through WY 2008.....	7.2-15
7.2.5-17	Historical daily storage each year for New Bullards Bar Reservoir (USGS Gage 11413515) from WY 1970 through WY 2008. WY 1977 represents the lowest peak storage during the period of record.....	7.2-16
7.2.5-18	Storage exceedance of historical daily storage for New Bullards Bar Reservoir (USGS Gage 11413515) from WY 1970 through WY 2008.....	7.2-16
7.2.5-19	Historical monthly average flow through the New Colgate Powerhouse Tunnel (USGS Gage 11413510) from WY 1970 through WY 2008..	7.2-17
7.2.5-20	Historical mean daily flow each year for the New Colgate Powerhouse Tunnel (USGS Gage 11413510) from WY 1970 through WY 2008.....	7.2-18
7.2.5-21	Flow exceedances of historical mean daily flows in the New Colgate Powerhouse Tunnel (USGS Gage 11413510) from WY 1970 through WY 2008.....	7.2-18
7.2.5-22	Historical monthly average releases from New Bullards Bar Reservoir from WY 1970 through WY 2008.....	7.2-19
7.2.5-23	Historical mean daily average releases from New Bullards Bar Reservoir from WY 1970 through WY 2008.....	7.2-19
7.2.5-24	Flow exceedance of historical mean daily New Bullards Bar Dam releases from WY 1970 through WY 2008.....	7.2-20
7.2.5-25	Average monthly Middle Yuba River inflow to Our House Diversion Dam from WY 1970 through WY 2008.....	7.2-21
7.2.5-26	Historical mean daily Middle Yuba River inflow to Our House Diversion Dam from WY 1970 through WY 2008	7.2-21
7.2.5-27	Flow exceedance of historical mean daily Middle Yuba River inflow to Our House Diversion Dam from WY 1970 through WY 2008	7.2-22
7.2.5-28	Average monthly flow for the Lohman Ridge Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008.....	7.2-22
7.2.5-29	Historical mean daily flow each year for the Lohman Ridge Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008.....	7.2-23
7.2.5-30	Flow exceedance of historical mean daily flow for the Lohman Ridge Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008...	7.2-23
7.2.5-31	Average monthly Middle Yuba River flow below Our House Dam from WY 1970 through WY 2008	7.2-24
7.2.5-32	Historical mean daily Middle Yuba River flow below Our House Dam from WY 1970 through WY 2008.....	7.2-24

List of Figures (continued)

Figure No.	Description	Page No.
7.2.5-33	Flow exceedance of historical mean daily Middle Yuba River flow below Our House Dam from WY 1970 through WY 2008.....	7.2-25
7.2.5-34	Average monthly Oregon Creek flow above the Lohman Ridge Tunnel outfall from WY 1970 through WY 2008.....	7.2-25
7.2.5-35	Historical mean daily Oregon Creek flow above the Lohman Ridge Tunnel outfall from WY 1970 through WY 2008.....	7.2-26
7.2.5-36	Flow exceedance of historical mean daily Oregon Creek flow above the Lohman Ridge Tunnel outfall from WY 1970 through WY 2008.....	7.2-26
7.2.5-37	Average monthly streamflow in the Camptonville Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008.....	7.2-27
7.2.5-38	Historical mean daily streamflow each year in the Camptonville Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008.....	7.2-27
7.2.5-39	Flow exceedance of historical mean daily streamflow in the Camptonville Diversion Tunnel (USGS Gage 11408870) from WY 1989 through WY 2008..	7.2-28
7.2.5-40	Average monthly Oregon Creek flow below Log Cabin Diversion Dam from WY 1970 through WY 2008.....	7.2-28
7.2.5-41	Historical mean daily Oregon Creek flow below Log Cabin Diversion Dam from WY 1970 through WY 2008.....	7.2-29
7.2.5-42	Flow exceedance of historical mean daily streamflow in Oregon Creek below the Log Cabin Diversion (USGS 11409400) from WY 1970 through WY 2008.....	7.2-29
7.2.5-43	Average monthly streamflow for the South Yuba River near Jones Bar gage (USGS Gage 11417500) from WY 1970 through WY 2008.....	7.2-30
7.2.5-44	Historical mean daily streamflow each year for the South Yuba River near Jones Bar gage from WY 1970 through WY 2008.....	7.2-30
7.2.5-45	Flow exceedance of historical mean daily streamflow for the South Yuba River near Jones Bar gage from WY 1970 through WY 2008.....	7.2-31
7.2.5-46	Average monthly flow for PG&E’s Narrows 1 Powerhouse releases from WY 1970 through WY 2008.....	7.2-33
7.2.5-47	Average monthly flow for Narrows 2 Powerhouse releases from WY 1970 through WY 2008.....	7.2-33
7.2.5-48	Historical mean daily releases each year for PG&E’s Narrows I Powerhouse from WY 1970 through WY 2008.....	7.2-33
7.2.5-49	Historical mean daily outflows each year for the Narrows 2 Powerhouse from WY 1970 through WY 2008.....	7.2-34
7.2.5-50	Flow exceedance of historical mean daily releases through the Narrows 1 and Narrows 2 powerhouses from WY 1970 through WY 2008.....	7.2-34
7.2.5-51	Average monthly Yuba River flow at the Smartville gage (USGS 11418000) from WY 1970 through WY 2008.....	7.2-35

List of Figures (continued)

Figure No.	Description	Page No.
7.2.5-52	Historical mean daily streamflow each year for the Yuba River at Smartville (USGS 11418000) from WY 1970 through WY 2008	7.2-35
7.2.5-53	Flow exceedance of historical mean daily streamflow for the Yuba River at Smartville from WY 1970 through WY 2008	7.2-36
7.2.5-54	Average monthly streamflow for Dry Creek from WY 1964through WY 1980...	7.2-37
7.2.5-55	Historical mean daily streamflow each year for Dry Creek from WY 1964through WY 1980	7.2-37
7.2.5-56	Flow exceedance of historical mean daily streamflow for Dry Creek from WY 1964 through WY 1980	7.2-37
7.2.5-57	Average monthly streamflow for Deer Creek at Smartville (USGS Gage 11418500) from WY 1970 through WY 2008.....	7.2-38
7.2.5-59	Flow exceedance of historical mean daily streamflow for Deer Creek at Smartville (USGS Gage 11418500) from WY 1970 through WY 2008	7.2-39
7.2.5-60	Average monthly streamflow for the Yuba River at Marysville (USGS Gage 11421000) from WY 1970 through WY 2008.....	7.2-40
7.2.5-61	Historical mean daily streamflow each year for the Yuba River at Marysville (USGS Gage 11421000) from WY 1970 through WY 2008.....	7.2-40
7.2.5-62	Flow exceedance of historical mean daily streamflow for the Yuba River at Marysville from WY 1970 through WY 2008.....	7.2-41
7.2.8-1	Yuba County Water Agency Member Unit service areas.....	7.2-47
7.2.9-1	Mean daily water temperature collected in Slate Creek 0.1 mile upstream of the North Yuba River in 2004-2005	7.2-53
7.2.9-2	Mean daily water temperature collected in the North Yuba River upstream of New Bullards Bar Reservoir (NYR 16.0) in 2008.....	7.2-53
7.2.9-3	Mean daily water temperature collected in the North Yuba River upstream of New Bullards Bar Reservoir (NYR 16.0) in 2009.....	7.2-54
7.2.9-4	Mean daily water temperature collected in the North Yuba River upstream of New Bullards Bar Reservoir (NYR 16.0) in 2010.....	7.2-54
7.2.9-5	Mean daily water temperature in Oregon Creek upstream of Log Cabin Diversion Dam impoundment (OC 4.3) in 2008	7.2-54
7.2.9-6	Mean daily water temperature in Oregon Creek upstream of Log Cabin Diversion Dam impoundment (OC 4.3) in 2009	7.2-55
7.2.9-7	Mean daily water temperature in Oregon Creek upstream of Log Cabin Diversion Dam impoundment (OC 4.3) in 2010	7.2-55
7.2.9-8	Mean daily water temperature in the Middle Yuba River upstream of Our House Diversion Dam (three monitoring locations) from 20032009	7.2-55
7.2.9-9	Mean daily water temperature in the South Yuba River upstream of USACE's Englebright Reservoir (two monitoring locations) from 2004-2009	7.2-56
7.2.9-10	Mean daily water temperatures in the Middle Yuba River in 2008.....	7.2-56

List of Figures (continued)

Figure No.	Description	Page No.
7.2.9-11	Mean daily water temperatures in the Middle Yuba River in 2009.....	7.2-57
7.2.9-12	Mean daily water temperatures in the Middle Yuba River in 2010.....	7.2-57
7.2.9-13	Mean daily water temperatures in Oregon Creek in 2008	7.2-57
7.2.9-14	Mean daily water temperatures in Oregon Creek in 2009	7.2-58
7.2.9-15	Mean daily water temperatures in Oregon Creek in 2010	7.2-58
7.2.9-16	Mean daily water temperatures in North Yuba River in 2008.....	7.2-58
7.2.9-17	Mean daily water temperatures in North Yuba River in 2009.....	7.2-59
7.2.9-18	Mean daily water temperatures in North Yuba River in 2010.....	7.2-59
7.2.9-19	Monthly temperature profiles of New Bullards Bar Reservoir in 2008...Upper power intake, which is not used, elevation range is shown as horizontal black lines, and lower power intake elevation range is shown as horizontal red lines ..	7.2-59
7.2.9-20	Mean daily water temperatures at four locations in the Yuba River in 2008	7.2-60
7.2.9-21	Mean daily water temperatures at eight locations in the Yuba River in 2009	7.2-60
7.2.9-22	Mean daily water temperatures at seven locations in the Yuba River in 2010... .	7.2-60
7.2.9-23	Mean daily water temperatures in Dobbins Creek in 2009.....	7.2-61
7.2.9-24	Mean daily water temperatures in Dobbins Creek in 2010.....	7.2-61
7.2.9-25	Monthly temperature profiles of USACE’s Englebright Reservoir in 2008. Note that data were unavailable for December.....	7.2-61
7.2.9-26	Mean daily water temperatures in the Yuba River at Smartsville (YR 23.6) from 2003 through 2007	7.2-62
7.2.9-27	Mean daily water temperatures in Deer Creek and Dry Creek in 2009.....	7.2-62
7.2.9-28	Mean daily water temperatures in Deer Creek and Dry Creek in 2010.....	7.2-62
7.2.9-29	Mean daily water temperatures in the Yuba River at USACE’s Daguerre Point Dam Fish Ladder from 2003 through 2007	7.2-63
7.2.9-30	Mean daily water temperatures in the Yuba River at USGS’ Marysville gage from 2003 through 2007	7.2-63
7.2.9-31	Mean daily water temperatures in the Yuba River downstream of USACE’s Daguerre Point Dam in 2008	7.2-64
7.2.9-32	Mean daily water temperatures in the Yuba River downstream of USACE’s Daguerre Point Dam in 2009	7.2-64
7.2.9-33	Mean daily water temperatures in the Yuba River downstream of USACE’s Daguerre Point Dam in 2010	7.2-64
7.2.9-34	Mean daily water temperatures in the Feather River near the Yuba River confluence in 2008.....	7.2-65
7.2.9-35	Mean daily water temperatures in the Feather River near the Yuba River confluence in 2009	7.2-65
7.2.9-36	Mean daily water temperatures in the Feather River near the Yuba River confluence in 2010.....	7.2-65
