

## APPENDIX E3

# PROPOSED IMPLEMENTATION PLANS

---

This appendix includes 14 implementation plans included in YCWA's proposed Yuba River Development Project. These plans and the order in which they are presented in this appendix are:

- Erosion and Sediment Control Plan (YCWA's proposed Condition GS1)
- Our House and Log Cabin Diversion Dams Sediment Removal Plan (YCWA's proposed Condition GS2)
- New Bullards Bar Reservoir Floating Material Management Plan (YCWA's proposed Condition GS6)
- Hazardous Materials Management Plan (YCWA's proposed Condition WR1)
- Streamflow and Reservoir Level Monitoring Plan (YCWA's proposed Condition WR4)
- Aquatic Invasive Species Management Plan (YCWA's Proposed Condition AR5)
- New Bullards Bar Reservoir Fish Stocking Plan (YCWA's proposed Condition AR6)
- Integrated Vegetation Management Plan (YCWA's proposed Condition TR1)
- Bald Eagle and American Peregrine Falcon Management Plan (YCWA's proposed Condition TR2)
- Ringtail Management Plan (YCWA's proposed Condition TR3)
- Recreation Facilities Plan (YCWA's proposed Condition RR1)
- Transportation System Management Plan (YCWA's proposed Condition LU1)
- Fire Prevention and Response Management Plan (YCWA's proposed Condition LU2)
- Visual Resource Management Plan (YCWA's proposed Condition VR1)

Due to the size of the plans when printed together, Appendix E3 in hardcopy is provided in a separate binder named Exhibit E, Appendix E3, Proposed Implementation Plans.

A fifteenth implementation plan, Draft Historic Properties Management Plan (YCWA's proposed Condition CR1), contains Privileged information and is included in Volume V of YCWA's Application for New Licensee.
