Washington, D.C. 20426-0001

**Subject: Yuba River Development Project
FERC Project No. 2246-042
Transmittal of Amended Final License Application,
Appendix E6 to Exhibit E**

Dear Secretary Bose:

On June 2, 2017, the Yuba County Water Agency (YCWA), as owner and operator of the Yuba River Development Project (Project), FERC Project Number 2246, filed with the Federal Energy Regulatory Commission (FERC or Commission) an Amended Application for a New License Major Project – Existing Dam (Amended FLA), pursuant to 18 C.F.R. Section 5.17.

YCWA's e-filed documents included all portions of the Amended FLA with one exception. Appendix E6 to Exhibit E must be filed by Compact Disc (CD) and Digital Versatile Disc (DVD) because the size and format of the material included in Appendix E6 preclude uploading it to FERC's e-Library system. Appendix E6 includes the Water Balance/Operations Model (HEC-ResSim) for the Yuba River Development Project, hydrologic information, technical memoranda for relicensing studies, a helicopter video of Project facilities and stream reaches, and other information.

As provided by the Commission's e-filing guidelines, with this letter, YCWA files with FERC an original and two copies of Exhibit E, Appendix E6.

YCWA requests that FERC include this material in YCWA's Amended FLA filing.

Kimberly, D. Bose, Secretary
Federal Energy Regulatory Commission

If you have any questions regarding the Amended FLA, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Curt Aikens". The signature is written in a cursive style.

Curt Aikens
General Manager
