

APPENDIX E3

PROPOSED IMPLEMENTATION PLANS

YCWA includes in its Amended FLA 21 implementation plans (Table 2.0-1 in Appendix E2 to this Amended FLA).

Thirteen of the 21 implementation plans were filed with FERC previously. Table E3-1 lists each of these 13 implementation plans, including for each plan: 1) the YCWA Proposed Condition associated with the plan, as described in Appendix E2 of this Amended FLA; and 2) the date YCWA filed the implementation plan with FERC and the associated accession number on FERC’s eLibrary. These previously-filed implementation plans are included by reference in this Amended FLA.¹

Table E3-1. List of resource plans in support of the relicensing, the date YCWA filed each resource plan with FERC, and the corresponding accession number for the resource plan in FERC’s eLibrary.

| Associated YCWA Proposed Condition in Appendix E2 of this Amended FLA | Date YCWA Filed Resource Plan with FERC | Corresponding Accession Number on FERC’s eLibrary |
|---|---|--|
| GEOLOGY AND SOILS | | |
| GS1, Implement Erosion and Sediment Control Plan | October 27, 2016 | 20161027-5175 Encl. 1A, Erosion and Sediment Control Plan |
| GS3, Implement Our House and Log Cabin Diversion Dams and New Bullards Bar Reservoir Woody Material Management Plan | October 27, 2016 | 20161027-5175 Encl. 1E, NBB Woody Material Plan |
| WATER RESOURCES | | |
| WR7, Implement Water Temperature Monitoring Plan | October 27, 2016 | 20161027-5175 Encl. 1I, Water Temperature Monitoring Plan |
| WR8, Implement Water Quality Monitoring Plan | October 27, 2016 | 20161027-5175 Encl. 1J, Water Quality Monitoring Plan |
| AQUATIC RESOURCES | | |
| AR5, Implement Aquatic Invasive Species Management Plan | October 27, 2016 | 20161027-5175 Encl. 1G, Aquatic Invasive Species Plan |
| AR6, Implement New Bullards Bar Reservoir Fish Stocking Plan | December 2, 2016 | 20161201-5304 Encl. 1A, NBB Fish Stocking Plan |
| AR8, Implement Lower Yuba River Aquatic Monitoring Plan | December 2, 2016 | 20161201-5304 Encl. 1C; LYR Aquatic Monitoring Plan |
| TERRESTRIAL RESOURCES | | |
| TR1, Implement Integrated Vegetation Management Plan | October 27, 2016 | 20161027-5175 Encl. 1K, Integrated Vegetation Plan |
| TR2, Implement Bald Eagle and American Peregrine Falcon Management Plan | October 27, 2016 | 20161027-5175 Encl. 1L, Bald Eagle and Peregrine Falcon Plan |
| TR3, Implement Ringtail Management Plan | December 2, 2016 | 20161201-5304 Encl. 1B, Ringtail Management Plan |
| TR4, Implement Bat Management Plan | October 27, 2016 | 20161027-5175 Encl. 1M, Bat Plan |
| CULTURAL RESOURCES | | |
| CR1, Implement Historic Properties Management Plan ¹ | July 5, 2016 | 20160705-5039, HPMP |

¹ YCWA has not filed each Implementation Plan with the Amended FLA since they are already in the docket and on file with FERC.

Table E3-1. (continued)

| Associated YCWA Proposed Condition in Appendix E2 of this Amended FLA | Date YCWA Filed Resource Plan with FERC | Corresponding Accession Number on FERC's eLibrary |
|--|--|--|
| AESTHETIC RESOURCES | | |
| VR1, Implement Visual Resource Management Plan | October 27, 2016 | 20161027-5175 Encl. 1C, Visual Resource Plan |
| Total | | 13 |

¹ Recent developments have resulted in a need to modify the Historic Properties Management Plan (HPMP). The needed modifications to the HPMP will be made following additional consultation efforts by YCWA with tribes, agencies, and SHPO. Once the modified HPMP has gone through another round of review by these consulting parties, the modified HPMP will be filed with FERC. YCWA anticipates that the final modified HPMP will be filed with FERC by the end of 2017.

The remaining eight of the 21 implementation plans are included in Attachment 1 to this Appendix E3. Each of the eight plans is discussed below.

- YCWA Proposed Condition GS2, Log Cabin and Our House Diversion Dams Sediment Management Plan. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1D, LCOH). Subsequently, YCWA made a minor modification to the plan. YCWA reviewed the modification to the plan with the Forest Service and understands the Forest Service agrees with the modification. The modified plan is included in this Appendix E3.
- YCWA's Proposed Condition WR1, Hazardous Materials Management Plan. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1B). Subsequently, YCWA made a minor modification to the plan at the Forest Service's request. YCWA reviewed the modification to the plan with the Forest Service and understands the Forest Service agrees with the modification. The modified plan is included in this Appendix E3.
- YCWA's Proposed Condition, Streamflow and Reservoir Level Compliance Monitoring Plan. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1F). Subsequently, YCWA made a minor modification to the plan. YCWA reviewed the modification to the plan with the Forest Service and understands the Forest Service agrees with the modification. The modified plan is included in this Appendix E3.
- YCWA's Proposed Condition WR9, Drought Management Plan. This implementation plan was not previously filed with FERC, and YCWA understands from the Forest Service that it is not a plan for which the Forest Service would file a FPA Section 4(e) condition. The plan is included in this Appendix E3.
- YCWA's Proposed Condition AR7, Upper Yuba River Aquatic Monitoring Plan. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1H, UYR). Subsequently, YCWA made a minor modification to the plan at the Forest Service's request. YCWA reviewed the modification to the plan with the Forest Service and understands the Forest Service agrees with the modification. The modified plan is included in this Appendix E3.

- YCWA's Proposed Condition RR1, *Recreation Facilities Plan*. This implementation plan was not previously filed with FERC. YCWA and the Forest Service have completed development of the plan, and YCWA understands the Forest Service agrees with the plan, which is included in this Appendix E3.
- YCWA's Proposed Condition LU1, *Transportation System Management Plan*. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1N). Subsequently, YCWA made a few minor modifications to the plan. YCWA reviewed the modifications to the plan with the Forest Service and understands the Forest Service agrees with the modifications. The modified plan is included in this Appendix E3.
- YCWA's Proposed Condition LU2, *Fire Prevention and Response Plan*. YCWA and the Forest Service reached agreement on this implementation plan and YCWA filed it with FERC on October 27, 2016 (Accession No. 20161027-5175 Encl. 1O). Subsequently, YCWA made a minor modification to the plan at the Forest Service's request. YCWA reviewed the modification to the plan with the Forest Service and understands the Forest Service agrees with the modification. The modified plan is included in this Appendix E3.

APPENDIX E3

Attachment 1 Implementation Plans²

1. Log Cabin and Our House Diversion Dams Sediment Management Plan
2. Hazardous Materials Management Plan
3. Streamflow and Reservoir Level Compliance Monitoring Plan
4. Drought Management Plan
5. Upper Yuba River Aquatic Monitoring Plan
6. Recreation Facilities Plan
7. Transportation System Management Plan
8. Fire Prevention and Response Plan

² Thirteen implementation plans (see Table E3-1) were previously filed with FERC and are included by reference in this Amended FLA.
